process and is not due to any unsafe condition in the plant. Based on this, the plant is expected to be authorised for further continued operation beyond May, 2002.

Village Telephones by Telecom Companies

764. SHRI C.P. THIRUNAVUKKARASU: Will the Minister of COMMUNICATIONS AND INFORMATION TECHNOLOGY be pleased to state:

(a) whether it is a fact that telecom companies failed to fulfil their existing targets of providing village telephones, as per the National Telecom Policy;

(b) if so, the details thereof;

(c) the reasons for not fulfilling the targets; and

(d) the action proposed by Government against these companies?

THE MINISTER OF STATE IN THE MINISTRY OF COMMUNICATIONS AND INFORMATION TECHNOLOGY (SHRI TAPAN SIKDAR): (a) and (b) Yes, Sir. The six private sector licensees of Basic Telephone Service have not been able to fulfill their voluntarily committed performance obligations in respect of provision of Village Public Telephones (VPTs). The commitments made vis-a-vis performance shown by them for provision of VPTs is enclosed as statement (*See* below).

(c) The private Basic Telephone Service Operators have apparently so far been focusing their efforts on providing service mainly in urban areas and performance/roll out of service in rural areas has been insignificant.

(d) Government has recovered Liquidated Damage (LD) charges for their delay in performance and made it clear that their committed performance obligations cannot be diluted in any case. Government has asked them to complete the unfulfilled committed roll out obligations by December 2002 against submission of Additional Performance Bank Guarantees and Deed of Guarantees. Further, Government has already taken appropriate steps to resolve their problems.
